DETAINEE DEATH REPORTED

OKLAHOMA CITY (March 12, 2022) – At approximately 7:50 p.m. on Friday, March 11, detention staff were passing our medication to detainees. They opened one of the cells, and one of the two detainees inside was laying on a bunk and would not respond to the officer. They immediately began life saving efforts and called for a nurse. Oklahoma City Fire personnel arrived and continued those efforts, but they were not successful in reviving the detainee.

Charles Moore, who was born on Oct. 31, 1973, was booked in on March 9, 2022. He was being held in a new arrival pod.

Moore's cell mate reported they both had been asleep for several hours. The initial investigation does not indicate any signs of trauma. Moore did not report any medical issues when he was booked in.

The State Medical Examiner's Office will make a final determination as to the cause of death.
